

# Synergy-Compost EZ

### CONTAINS NONPLANT FOOD INGREDIENTS:

#### Soil Amending Guaranteed Analysis

7%	Humic Acids from Leonardite
0.5%	Soluble Silicon (Si)
	Rhizophagus irregularis 120 Propagules / g
92.5%	Total Other Ingredients (inert as a nonplant food ingredients)

#### Application Rate

5 lbs Zytonic Compost EZ per ton of animal manure / poultry manure / green waste / farm waste

#### Application Methodology

- Create a Zytonic Compost EZ solution by mixing 5 lbs of product in 40-50 gallons of water per MT of desired medium (animal manure / poultry manure / green waste / farm waste)
- Make a static pile or windrow of the desired medium, and spray the solution during the piling process.  
OR
- Spray the Zytonic Compost EZ solution over the pile or windrow and ensure complete drenching and mixing
- Cover the pile with silage tarp or other suitable plastic sheets (if possible, to prevent moisture loss) and leave for 60 days to allow the process of effective bio-digestion (Temp. 50-90° F)

#### Note

- For a robust crop with superior yields, Zytonic Compost EZ bio-digested compost can be applied at the rate of 1-2 tons / acre mixed with 15 lbs of Zytonic M as a soil application
- Avoid the use of fungicides and inorganic fertilizers, especially Urea, DAP or soluble phosphates, etc. within the first month of sowing (post-germination or transplantation)

#### Storage and Disposal:

Store in a dry, cool area. Keep sealed in original packaging. Do not expose to temperatures in excess of 140F or 60C. Dispose contents/container in accordance with local authority requirements
