

K2 FOIL TRANSFER ADHESIVE

INTRODUCTION

K2 Foil Transfer Adhesive & K2 Foil Adhesive (TG) are an eco-friendly product designed for foil printing on garments. The adhesive available in both table and machine grades.

The foil does not stick to the cured K2 inks under pressure. Coating of K2 Matt, i.e. matting agent helps to avoid sticking. This would allow the printer to create selective areas printed with a K2 Foil/ Transfer adhesive with foil creating an integrated design of foil & regular print.

CERTIFICATION

- GOTS
- RSL compliant

FEATURES

- High adhesive strength
- Fine particles
- Facilitates selective foil transfer
- Excellent washing fastness

PHYSICAL PROPERTIES

FORM	
Physical state	Paste
Color	Off White
Odour	Faint Smell
pH	Approx. 7-9
Water solubility	Dispersible in Water

STORAGE & SHELF LIFE

- Do not store under direct sunlight or at a temperature exceeding 45°C
- Always keep the lid close after the material is withdrawn from container
- Shelf life of the product is 24 months (under ideal storage conditions)
