

# DESCRIPTION

Free flowing, flexible acrylic polymer binder powder which is easily soluble in water

# **PRODUCT ATTRIBUTES**

- · Ideal for finer counts and denser sorts
- Better penetration and providing strength to the yarn
- Provides high abrasion resistance
- Very high flexibility
- Minimum loss of elongation
- · Compatible with starch and other binders
- · Lesser effluent load because of lower dosage

# **TECHNICAL DATA**

| FORM   |   |
|--|---|
| Appearance                                       | Pale yellow transparent to translucent liquid |
| Solid content                                    | 25 ± 1.0%                                     |
| рН   | 5.5 - 7.0                                     |
| Viscosity Range<br>in Zhan Cup No-4 at 30 ± 1 °C | 13 - 15 sec                                   |

### APPLICATION

- It is recommended for cotton/ PC/ PV finer and denser sorts.
- $\boldsymbol{\cdot}$  Higher dosage with the increase of fineness and density of sorts.

# **APPLICATION GUIDELINE**

- Take desired level of water and add starch with stirring.
- Add ZYDEX 2400 along with other ingredients and transfer to pressure cooker.
- Heat till the starch is completely cooked.
- · Add softener to the above mixture and transfer to the sizing box

#### **COMPLIMENTARY PRODUCTS**

- SIZOL AQ: Modified starch
- ZYDEX 2360/2361: Acrylic polymer dispersion binder for hairiness control
- ZYDEX 4502/4503: Concentrate, Odor free, waxy softener for improved lubricity and bonding
